Class: 5A (Group 2)

## Apple Smoothie Recipe

### Ingredients

- 2 apples
- 1 glass of water
- 1 cup of milk
- ½ glass of honey
- 1 glass of ice
- 2 cups of yoghurt

### Servings

1

### Time

12 minutes

### Steps

1. First, peel and cut the apples into slices.
2. Next, put the apple slices, plain yoghurt, and milk into a blender, then add some honey.
3. After that, blend the mixture until it is smooth.
4. Finally, pour the smoothie into a large glass with a straw. Alternatively, you can make enough for a group of people and serve the smoothie in a glass jug. Drink before it gets warm. Enjoy!

*Teacher's comment: Great work! Fantastic progress using sequencing words to write recipes.*
