My Trip to Yau Tsim Mong District

Visiting Yau Tsim Mong District was an amazing experience.

In the morning, we went to the Former Kowloon-Canton Railway Clock Tower. We took photos and explored the waterfront. We saw the red brick tower and the harbor skyline. I felt happy; it is a historic landmark with great views.

In the afternoon, we visited the Hong Kong Cultural Centre. We walked through the art galleries along the waterfront. We saw the curved modern facade and enjoyed the harbor views. I felt joyful. It is a top cultural hub with free art and wonderful scenery.

In the evening, we went to the Hong Kong Space Museum. We watched a sky show in the planetarium and saw the dome-shaped theater, space models, and star projections. I was

amazed! It was a unique, educational experience with immersive shows.

What an unforgettable trip! I can't wait to go back!

Teacher's comment: You have done a good job organizing your trip with clear descriptions!
